Description of the Company

For governments and corporations throughout the globe, Canadian Bank Note Company (CBN) is a dependable leader in safe technological solutions. Currency manufacture, border security, civil identity, driver identification and vehicle information, excise control, lottery, and charity gaming are only a few of the commercial categories in which the corporation works.

Our corporate behaviors are shaped and guided by our seven core principles, which also serve as the foundation for the feeling of community that you will encounter at CBN. We take great satisfaction in creating a cooperative and encouraging work atmosphere where staff members are appreciated for their efforts and encouraged to further their careers.

At CBN, we aim to build enduring connections with our staff members by rewarding them with a competitive overall pay plan that consists of:

Best-in-class health, medical, and life insurance benefits; access to virtual and telehealth services and apps; very progressive fertility, adoption, and surrogacy benefits to support all definitions of family; and an industry-leading defined contribution pension plan with company matching contributions (up to 5%) and service fee payment.

Description of the Job

Role: Designer of Secure Documents

Type of Job: Full-Time, Permanent

Address: 18 Auriga Drive, Ottawa, Ontario, Canada

Hybrid Work Model

The purpose of this ad is to cover an open position.

Overview of the Position

In order to prepare conceptual designs and develop and implement final designs with security line work, illustrations, and digital files for the production of a variety of security documents (such as banknotes, passports, driver license and identification (DL/ID) cards, etc.), you will use your artistic and creative skills as a Secure Document Designer in our Design Department. We are seeking a creative individual with outstanding design, composition, and illustration abilities.

Obligations

Innovation & Conceptual Design:

Development of conceptual models for security items, such as banknotes, identity documents, certificates, cards, and secure travel documents (passports)

Use innovative design applications to support the continuous development of new security feature integration.

Perform research, compile final artwork files for production, and provide pictures and artwork for finished concept designs.

Make drawings and illustrations for idea designs.

Create and provide design proofs or models for a client presentation.

Integration of Production and Compliance:

Discuss conceptual concepts with the production team and put the suggestions into practice to ensure production conformity.

Establish and establish safe manufacturing linework

In order to get client approval, take part in the approval process as needed during press proof trials and first production runs.

File and System Management:

Establish thorough and functional file management for each project that has been allocated.

Collaboration between clients and stakeholders:

Interact with clients and corporate sales management personnel as needed to comprehend design specifications and provide design justification for all tasks.

Create thorough design presentations to assist with marketing and design goals.

Qualifications

Knowledge and Education

A bachelor's degree in graphic arts, design, etc., or a comparable mix of coursework and extra related job experience

Understanding of the following

Principles of graphic design

Designing documents with security elements, security line work, etc.

Combining design components with all relevant aspects

Safety Procedures and specifications for print production

familiarity with security features, printing, line work, and related procedures;

competence in the following areas:

**specialized software for security design (Giori "One" or JURA JSP)
Products in the Adobe suite (Photoshop, Illustrator, InDesign, etc.)
Microsoft 365, which includes Word, PowerPoint, SharePoint, and
more**

**It is necessary to have above-average design, composition,
illustration, and drawing abilities in order to represent portraits and
other subject matter with remarkable precision and detail;**

Experience

**More than a year of expertise in security document creation, design,
and integration**

Soft Skills and Proficiencies
